Term Two

ART

Week 2

This week you are going to create a piece of ground art using materials found in your backyard or when you go for a walk with your family.

This great thing about this type of art is that it doesn't require any glue! Watch our video to learn some great tips and ideas for your own work. We look forward to seeing a photo of your creation on Showbie!

Think about the colours, textures, patterns and shapes you could use to make your artwork.

MAKER SPACE ACTIVITY

MakerSpace Game Challenge

Click on the dice to access the lesson

INSTRUCTIONS

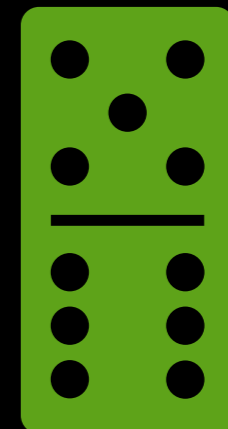

Create a game with easily accessed items from home.

If you are at home with other students, like

siblings or cousins, you can work as a team on this challenge if you like.

For a detailed list of requirements, click [HERE](#)

MAKER SPACE ACTIVITY

Requirements:

- Game must be able to be packed up easily and quickly.
- Must be safe for those playing the game, those watching and for the area that it is conducted in.
e.g. Nothing flying across the room that will hit beautiful picture frames and smash them!!
- Game needs set up instructions. This could be a diagram or step by step instructions or both!
- Game needs rules and a scoring structure. E.g. Each goal from 1 metre away is worth 2 points but if you are 1.5 metres away it is worth 3 points. These need to be agreed upon and written down before the game is played.
- Once you have drawn up the instructions, rules and scoring structure you can get playing and test out your game. Make sure you fix up your instructions, rules or scoring structure if you make changes after testing out your game.

If you want to look at the examples from Mrs B, click pause when they are on the screen on the video.

Showbie Share

- You may like to upload a photo of your game, a movie, a picture of your scoring sheet or just a comment on how you went with the task.

MUSIC ACTIVITY

Watch the video by clicking on the drum kit

TASKS

1. "We Are" Auslan song: Have a sing through the song and see how much of the sign language you can remember (click on the speaker picture to access the YouTube)

2. Sing along to this "I Knew You Were Treble" song (click on the treble clef)

This song is a reminder of where all the line and space notes are on the music stave. It is lots of fun! It is based on a song.

3. Create a treble clef with something you have in your house. Here are 3 that I did using things that I use a lot:

*Shell Pasta

*USB chord - I had to sticky tape it down on the bench to stop it moving

*Resistance band. (stretchy rubber that is used for exercising).

Use your imagination and be as creative as you can!

MUSIC ACTIVITY

Music Activities Continued...

TASKS

4. Your next stretch could be finding some other musical symbols that you could create out of household items. Here are some symbols for you to choose from

OPTIONAL

There are a couple of games that you might like to play. They are interactive note-naming games that are really fun:

Staff Wars Game:

Download "Staff Wars" on the app store and play the treble clef game. This is a paid app \$1.49 so you would need to ask an adult for permission first

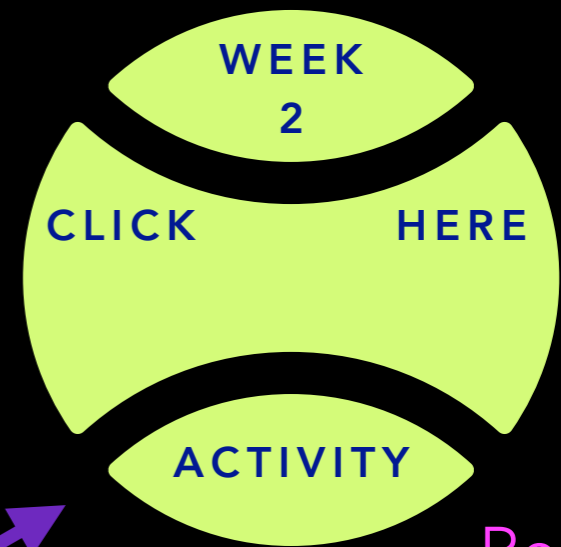

PLAY this "Treble Clef Note-Naming" Game. This is a free online note-naming game

PE ACTIVITY

Hi Grade 3 and 4 Students,
This week's activity will have you practising your ball skills. You will work your way through a number of activities demonstrating skills including throwing, catching, tracking the ball, dribbling, coordination and body position.

Remember,
click on the
tennis ball to
watch a video
to find out
more!

HAVE FUN!

Don't have a ball? No worries! You could make one from scrunched up paper and tape, use a soft toy or even a pair of socks!

Your task: Complete the '8 - 2 - 1' Challenge

Watch the video to find out about each activity and then have a go at each one yourself.

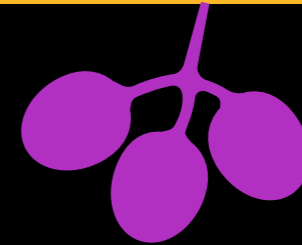

We would love to see a photo or a short video of you in action doing the challenge, particularly the last activity!

SAKG ACTIVITY

Fruity Breakfast Bowl

1. Click on the bowl to watch the video

TASK

Go to the **specialist folder** in **Showbie** to download the recipe card and start making your breakfast bowl

(keep referring to the video above if you have any trouble)

2. If you are missing an ingredient or two, don't worry! You can always try something else...be creative!
