## From the Principal's Desk

Welcome back to Term 4. I'm hoping all of our children, families and staff had a chance to enjoy their holiday break and are ready for a busy term of learning. Our new 'Big Idea' this term is 'Flourish' and it is already creating lots of interest and discussion. Children will be learning about all the things in our lives that contribute to flourishing - knowledge that will support them throughout their lives.

Physical activity and caring for our bodies is one of those things and it was wonderful to see that even some rain could not deter a huge number of our children and families participating in the Walk To School/Crazy Socks activity yesterday. It has been great to hear how many children are regularly walking to school now – a great thing to do as the weather warms up. And what a beautiful place in the world to do it!

Gratitude or focusing on what's good in our lives and being thankful the things we have is another important part of flourishing. Gratitude is pausing to notice and appreciate the things we often take for granted.

There was great excitement last week when Jenny Kelly, our Stephanie Alexander Kitchen Garden teacher, pointed out to students all of the ladybirds that are breeding and flourishing on our oak tree. Without taking the time to stop and look more closely, this opportunity would have been missed.

Research shows the huge benefits of practicing gratitude – not just making us feel good but being good for our bodies minds and brains. For this reason, intentionally developing the 'gratitude habit' will be a focus this term across the school. I'm sure families will hear lots more about it throughout the term from their children – you might want to try some of the things at home too!

## State School Spectacular

Congratulations to our students involved in the State School Spectacular late last term. Twenty of our Grade five and sixes worked hard over many months to prepare for two amazing performances that were held at Hisense Arena in Melbourne. What an amazing experience to be part of a mass choir that consisted of over 1500 primary and secondary students from across Victoria. It was an outstanding showcase of musical and dancing talent from students attending Government schools. A huge thank you to Kathryn Lane and Adele Brice for all their hard work to make this experience possible for our students and to our families for their support.

## Hats On!

Just a reminder that all children need to be wearing their hats while outside.

## Upcoming Twilight Farmers' Market – Saturday, 27<sup>th</sup> October; 3:00 pm – 7:30 pm

Planning is well underway for our Twilight Market that is only 9 days away!! There will be lots of fantastic Farmers' Market, craft and gift stalls, great food stalls and activities for kids. Perfect timing for Christmas shopping. Put it in your diary!

## Games and APP Challenge Day

Good luck to the Grade 6 students -Josh, Occy, Ethan and Ryan who will be pitching their Lunch Order app next Friday at the Department of Education Games and App Challenge day at ACMI in Melbourne. The boys have demonstrated creativity and commitment as they have worked together to create an app that will provide an easy solution for parents to order lunch and order from the Canteen window.

## Grade 1/2 Sleepover

There is great excitement in Grade 1/2 as they anticipate their sleepover, which is happening next week. What a wonderful opportunity for children to build their independence and perhaps be outside their comfort zone! Children often feel so proud when they have faced a challenge and grown from the experience! For some children this is their first experience of sleeping away from home, so it a great foundation for the camping experiences that are to come in years ahead at school.

## Bandanna Day – Friday, October 26<sup>th</sup>

Our annual Bandanna Day will be held on Friday, October 26<sup>th</sup>. Bandanna's are available for sale at the office for \$5.00. Be quick while there are lots of choices left!

## Lost & Found

We have several pairs of children and adult prescription glasses as well as two fit bits handed in to the office.

## Scholastic Book Club

Issue 7 is being sent home this week. All orders must be completed online by Tuesday the 30th of October, through the loop system. Please don't send money to school, as our office staff are unable to process orders.

[www.scholastic.com.au](http://www.scholastic.com.au)

Regards

Julie

## GAC 2018 Competition

Our Grade Six ICT Captains have been involved in the 2018 Games and App Challenge. The Challenge is open to all Victorian school students in years 3 to 10 and aims to encourage creativity in coding and highlight the role of art and design in the games and apps development industry. It involves students producing games and apps that offer solutions to real world problems.

The challenge culminates in a showcase exhibition at the Education in Games Summit 2018 at ACMI on Friday 26<sup>th</sup> October. The theme for this years challenge is: **Together We Can**. Our ICT captains have developed a prototype titled 'Lunchbox' which provides a solution to ordering lunch orders and provides a simple way for students to make purchases at the canteen. We are very proud of the dedication the boys demonstrated towards the challenge and of their final product.

Our captains will share their prototype at an upcoming assembly after the Education in Games Summit 2018.

### Cyber Safety

Each newsletter we will endeavor to bring you Cyber Safety updates.

If you are on Facebook it is a great idea to follow the **Cyber Safety Project** (the team that facilitated our recent Cyber Safety student and parent workshops) and the **Office of the eSafety Commissioner**.

The **Office of the eSafety Commissioner** recently featured the following information on their page;

*Internet connected toys are becoming more widely available – they can offer lots of benefits through interactive play and education, however also come with features that you need to be aware of.*

*Be proactive & keep your child safe with these helpful tips: <https://goo.gl/jixqFo>*

### Expressions Program

The Term 4 Expressions Program certainly has many exciting programs on offer.

Students have been able to choose from; Grades 3-4 *Ceramics – Clay Lighthouse and Pottery Studio visit*, Grades 5-6 *Ceramics– Clay Boat and Character and Pottery Studio visit*, Grades 4-6 Christmas Theme Creative Cakes workshop, Grades P-3 Christmas Creative Cupcakes, Horse Riding for Grades 2-6, Grades P-2 Science Crystals, P -6 Circus Skills and Grades 2-6 Apple Store Visit focussing on *Sphero Maze Challenge*.

Payments are now overdue. Positions which have not been paid for will be offered to other students on the waiting list. Unfortunately we have still not been able to offer all children on the Cupcakes waiting list a position. We will consider running this program again early in 2019 and again offer it to children on the waiting list.

### iOS 12 Update

Have you updated your child's iPad to the latest operating system?

Did you know that there is a new feature called **Screen Time**?

Screen Time allows parents to be understand how their family uses their iOS devices. It allows you to make informed decisions about how you use your devices, and set limits.

Not only can you get weekly insights about how much time you spend on your device, you can set time limits for apps that you children use.

*Please refer to the attached document 'Use Screen Time to get insights about how you use your device' to support you to use the feature.*

Kind Regards

Adele Brice  
Assistant Principal

*Eftpos and credit card facilities available.*

## *School Banking*

Our School Banking continues every **Wednesday** morning with Bendigo Bank.

New accounts are welcome at any time.  
You can apply online or collect a new account form from the office.

### “Great teachers inspire”

The diverse ways that teachers can present learning to students today is a great stretch on the classroom that you and I may remember from when we were students.

I remember my time at school, as a young child, tables in rows, completing work sheet after work sheet, everyone doing the same activity at the same time. How lucky for our children that things have changed over time! Today, teachers have a greater variety of tools to use to help deliver innovative teaching and learning programs.

Teachers have multi-media at their fingertips and can use it to strengthen their teaching focuses. The Victorian Curriculum encourages teachers to include Literacy strands such as ‘Reading and Viewing’. *‘Viewing visual literacy involves closely examining diverse visual texts across a range of text types. Text types include non-fiction, textbooks, picture books, art, advertisements, posters, graphic novels, comic strips, animations, films, web pages, and more.’* ([www.education.vic.gov.au](http://www.education.vic.gov.au)) Watching a related movie, analysing a trailer and checking a YouTube clip to help inspire a class discussion are all relevant ways for teachers to present learning to students of the current generation.

Mathematics classes today probably look and sound different to what you remember too. Today, students experience number games to build fluency, partner work to promote sharing, opportunities to articulate mathematical reasoning, and a session can be wrapped up with a ‘number talk’, where students lead the discussion about strategies they used to come to a solution. This type of learning environment doesn’t have space for red pen ticks and crosses in student workbooks. Students are encouraged to think about their thinking, suggest the strategies that they use to solve problems and question their peers about other strategies that could be used too. A very different way to learn mathematical concepts.

Today, students take responsibility for their learning, teachers motivate students to steer the way; learner agency. Students are encouraged to identify their next stretch in learning and check in with the progress of their self-identified learning goals. Students need to commit and persist with learning in order for this to succeed. This is an incredibly different scenario to that of the past where systematically working through a text book was the focus.

Today, teachers open the door for students to step up and question, query and wonder, share curiosities and collaborate to find solution.

If you would like to read more about innovation in Victorian schools, take a look around the new DET website. It gives a great indication of the amazing things going on in our schools today. If you are interested in finding out more go to [www.education.vic.gov.au](http://www.education.vic.gov.au)

## *Around The School...*

### *Steph Woods is hosting another meat tasting fundraiser to raise money for the Creating Hope Foundation*

The Moira Kelly Creating Hope Foundation builds on Moira's decades of work caring for sick and needy children and their families. It provides comfort, hope, protection and safety to children and families who need it most.

Moira is renowned for her work bringing to Australia children with serious health problems that local doctors are unable to treat. Her foundation continues this work by providing support for children and displaced women from overseas and from our own community here in Australia who have not been able to receive help elsewhere. She takes on causes that everybody says no to and she says of her work, "There's no saying no to hope."

Ultimately, Moira works to help children and families help themselves, so they can be as fully independent as possible and live full lives in the community.

Moira's work is funded almost entirely by charitable donations. Her foundation manages a home in inner suburban Melbourne where the most needy children and families are housed and provided with medical care and support. It is staffed entirely by volunteers.

#### *What is it?*

We need 60 people to come along and taste test 7 beef or lamb samples. Each person will fill out a survey on the meat they have eaten and this will be given to the meat producers to use as market research.

You need to be between 18 and 70 and must be able to eat meat between medium rare (so the meat will be a little pink in the middle) and medium-well done.

#### *When and where is it being held?*

**It's being held on Sunday 4<sup>th</sup> November at Wonga Park Primary School. You can choose to come for either the 11am session, 12pm or the 1pm session. Please allow up to an hour for the session.**

#### *How much will we raise?*

The organisers will pay us \$1000 BUT we have to get 60 people AND it's the Melbourne Cup Weekend!

#### *How do I register?*

You can register by emailing Kylie at [kyliepoppins@me.com](mailto:kyliepoppins@me.com) or by texting/calling her on 0419 359 831.

Please come along and support Moira's amazing foundation.

## **Music News**

THE VICTORIAN STATE SCHOOLS

# SPECTACULAR

Our Senior Choir students performed in the Victorian State Schools Spectacular on Saturday 15<sup>th</sup> of September amongst 2500 other singers, dancers, instrumentalists and entertainers. This truly was “spectacular” and I’m sure the students will remember this experience forever!! I would like to congratulate our WPPS students on their commitment to learning 15 songs as well as some choreography and for being great ambassadors for WPPS whilst at the rehearsals and performances. This was a huge effort on their part and they handled the arduous rehearsal and performance season like professionals!!

Thank you to Adele Brice for her support and for performing with us on the day and to our very supportive parents for getting your children to and from the rehearsals and performances.

### **One Song, One Day, November 1st 12:30 p.m.**

*“Music: Count Us In (MCUI) is Australia’s biggest school initiative. In 2017, more than 600,000 students from over 2,500 schools participated nationwide. Music: Count Us In brings teachers, parents, students and the music industry together in celebration of music and music education. The program is a perfect fit for schools with an existing music program and for schools without one. Music: Count Us In exists to advocate for improved access to music education for all students across Australia.”*

We are all learning “One Song” during music classes and performing it together on Thursday the 1st of November with thousands of other students around Australia via livestream from Federation Square!!

Here is the link for the song so that you can practice it at home:

<https://www.youtube.com/watch?v=olc-meOU-7U&t=0s&index=4&list=PLEpXT4Gn8YYAGUr9xmGsDYvrlBEqvl-5q>

The following link will get you into the livestream from around 12:00 on the 1st of November:

*Around the School cont ...*

## Farmers Market Choir Performance

Our choir has been invited to perform at the Twilight Farmer's Market on Saturday the 27<sup>th</sup> of October. We will take to the stage at 4:30 p.m. so hope to see everyone there.

## WHAT'S GOING ON IN THE MUSIC ROOM THIS TERM???

Our grade five and six students have begun a new program called "Musical Futures" where they "Just Play". We have purchased and borrowed some keyboards, guitars, bass guitar and electric drum kit and every student is learning to play these instruments in our class bands. We are currently working on learning some chords, drum beats, and playing in time with each other. This is such a fun, engaging activity for our senior students!

We are still looking for some more 3/4 size acoustic guitars if anyone has some that they would either like to lend to us or donate to the program.

Thank you.

Kathryn Lane

### Jump Rope for Heart kicks off this term!

Jump Rope for Heart is a fantastic physical activity and fundraising program that has been run by the Heart Foundation for 35 years. It's a great way for your child to keep fit and learn new skills, but it also helps raise funds for vital heart research and education programs.

Since Jump Rope for Heart started in 1983, schools like ours have raised more than \$104 million for the Heart Foundation's lifesaving work.

It's important you **register your child online**, so they can receive the full benefits of the program and participate in online fundraising, simply follow the link below to get started.

<https://jumprope.heartfoundation.org.au/register>

Students will be skipping throughout the term in PE lessons and during the recess and lunch breaks, during this time you can share their online fundraising page with family and friends to help raise money for this great cause.

We will hold our school Jump Off Day on Friday, November 9<sup>th</sup>. This will mark the end of the program and is a chance for everyone to come together to skip and show off his or her newly learned skills. A notice went home this week with more information about our JRFH program along with a sponsorship form (for cash donations).

Thank you for supporting the Jump Rope for Heart program and let's get skipping!

## FUNDRAISING CUSTOMER ORDER FORM

Hi! My name is Hannah Wells and I live at 58 Toppings Rd in Wonga Park. I'm fundraising to help fund my community expedition to Cambodia in June 2019. I am a past student of Wonga Park Primary and look back at my memories of Primary school fondly. I am now a year 11 student attending SEDA College. My school has partnered with Antipodeans Abroad giving us the opportunity to travel to a developing country and work with the local community. Students are required to raise funds for a community project which will help create a more sustainable and prosperous future for the locals. Project work is varied but involves working to improve the infrastructure of local schools and interacting with local children in small village communities. All funds I raise will go towards the group project, not the cost of my trip.

One of the ways I am fundraising is via Mango Fundraiser. I would love it if you would purchase a tray or two of new seasons mangos fresh from far North Queensland.

The Mango Fundraiser only use Bowen Special Mangoes which are more formally known as Kensington Pride Mangoes. They are packed in a single layer tray, with approximately 7kg of Mangoes per tray. The number of Mangoes per tray depends on the size of the fruit, and may vary from 12 large Mangoes up to 23 small Mangoes. Each tray costs \$25 and will delivered to your door!

**If you would like to place an order...**

**Step 1-** You can send me a text on 0429377636 or pop this order form back our letter box at 58 Toppings Rd, Wonga Park.

**Step 2 –** Make a payment into my PayPal account, [paypal.me/HannahWellsCambodia](https://www.paypal.me/HannahWellsCambodia) prior to Sunday 21<sup>st</sup> of October.

**We will deliver** the mangos to your door during the week commencing 26<sup>th</sup> of November. Just in time for the start of summer!

| NAME | PHONE | ADDRESS | QTY | PRICE | TOTAL |
|------|-------|---------|-----|-------|-------|
|      |       |         |     | \$    | \$    |

\*Please note that while every effort will be made to deliver your order to your School/Club/Organisation on the preferred delivery date, the occasional delivery may be delayed due to logistical difficulties beyond our control.

Your coordinator will notify you of any changes. Thank you for your understanding.

Parent's first names: \_\_\_\_\_

Student's grade and room: \_\_\_\_\_

Any allergies/health conditions: \_\_\_\_\_

Contact number: \_\_\_\_\_

# Use Screen Time to get insights about how you use your device

With Screen Time, you can access real-time reports about how much time you spend on your iPhone and iPad, and set limits for what you want to manage.

Screen Time — a new feature of iOS 12 — lets you know how much time you and your kids spend on apps, websites, and more. This way, you can make more informed decisions about how you use your devices, and set limits if you'd like to. Read on to learn how to turn on Screen Time, view your report and set limits, and [manage a child's device](#).

## Turn on Screen Time

1. On your iPhone or iPad, go to Settings > Screen Time.
2. Tap Turn On Screen Time.
3. Tap Continue.
4. Select This is My [device] or This is My Child's [device].

You can now get a report about how you use your device, apps, and websites, any time you want.

If it's your child's device, you can set up Screen Time and create settings right on their device or you can use Family Sharing to configure your child's device from your own iPhone or iPad. After you set up your child's device, you can also use Family Sharing to view reports and adjust settings any time, right from your own device.

With Screen Time you can also create a dedicated passcode to secure settings, so only you can extend time or make changes.

Make sure to choose a passcode that's different from the passcode you use to unlock your device. If you can't remember a restrictions passcode that you set on a previous version of iOS, or you forgot your Screen Time passcode, you need to [erase your device, then set it up as a new device](#) to remove the passcode. Restoring your device from a backup won't remove your passcode.

## **View your report and set limits**

Screen Time gives you a detailed report about how your device is used, apps you've opened, and websites you've visited, any time that you want to see it. Just go to Settings > Screen Time and tap the graph. There, you can see your usage, set limits for your Most Used apps, and see how many times a device was picked up or received a notification.

If you turned on Share Across Devices, you can view overall usage across devices that are signed in with your Apple ID and password.

Here are the settings that you can manage:

## Downtime

Think of this as a nap for your screen time. When you schedule Downtime in Settings, only phone calls and apps that you choose to allow are available. Downtime applies to all of your Screen Time-enabled devices, and you get a reminder five minutes before it starts.

## App Limits

You can set daily limits for app categories with App Limits. For example, you might want to see Productivity apps while you're at work, but not Social Networking or Games. App Limits refresh every day at midnight, and you can delete them any time.

## Always Allowed

You might want to access certain apps, even if it's Downtime or if you set the All Apps & Categories app limit. Phone, Messages, FaceTime, and Maps are Always Allowed by default, but you can remove them if you want.

## Content & Privacy Restrictions

You decide the type of content that appears on your device. Block inappropriate content, purchases, and downloads, and set your privacy settings with [Content & Privacy Restrictions](#).

---

## Use Screen Time with your family

With Family Sharing, you can share music, movies, apps, and more with family — and it now works with Screen Time. You can view reports and adjust settings for children in your family any time, right from your device.

If you're already in a family group, go to Settings > Screen Time, and tap your child's name. If you need to create an Apple ID for your child, go to Settings > [your name] > Family Sharing > Screen Time.

Or if you're [new to Family Sharing](#), tap Set up Screen Time for Family and follow the instructions to add a child and set up your family. You can add family members any time from Family Sharing settings.

To use Screen Time with Family Sharing, you need to be the family organizer or parent/guardian in your family group, on iOS 12. Your child must be under age 18, in your family group with their own Apple ID, and on iOS 12.

### Re-usable Lunch Order Bags

**\$10.50 each**

The re-usable canteen bags are in stock and available at the office for **\$10.50**.

They are made of non-woven polypropylene, durable and easily wiped clean with a damp cloth. These bags are designed to keep money and written lunch orders in a safe separate zipper pocket so that it is not lost and so that it does not come into contact with food. The bag also has a transparent pocket to display Student's name and class.

### LOST PROPERTY

Our Lost property is now located in the Admin / sick bay area.

**Please feel free to come and look for lost items at any time.  
Don't forget to name all your school items to make returning easier.**
